Waterlily

—EARLIEST OF ALL TULIPS

This gorgeously unique Tulip is one of the most unusual and appealing creations we have ever offered our customers. It is a Double Early hybrid, sending forth a profusion of large, double blooms in late April or early May—one of the earliest in the entire Tulip family.

In color it is a delightful primrose-yellow. When fully opened the shape, form and texture of the completely double flowers somewhat resemble those of a Water Lily in full bloom. For this reason it has most appropriately been named **Waterlily**.

It is ideal for forcing, and if planted in pots and grown on indoors, it bursts into bloom in late winter, producing a delightful foretaste of Spring long before the snow has gone; but if planted in the garden, it will be in its prime before the buds of other Tulips have opened. Be sure to add this choice variety to your collection. You'll like it, we know.

PRICE: \$1.00 each; 3 bulbs for \$2.50, postpaid in U. S.

Big Popular Demand. Easy Fruit to Grow. Quick Crop Producer.

Whitten's Cultivated Giant Blueberries offer one of the greatest opportunities to the fruit grower! They have proved to be a greater money-making proposition than any other fruit.

Four-year-old plants often yield at the rate of 150 crates per acre, and 24-pint crates sell at \$6.00 per crate and more wholesale, right here in Michigan. Plants start bearing the second or third year. Mature bushes produce as much as seven quarts of berries in a single season. With proper care a planting lasts for a lifetime, and the first crop will pay for the plants.

They're Easy to Grow! Just plant the bushes 5 by 7 feet apart, and cultivate as you would any bush fruit. Cultivated Blueberries require an acid soil, good drainage, and an ample supply of moisture.

Instructions for proper planting and culture of Blueberries sent free with each order.

GRAPE VINES

CACO The Best of All Red Grapes: A comparatively new variety, originating in Delaware. Its quality is excellent. Ripens in September. Fruit is very large, rich wine-red color; flavor of the finest. Very rich and sweet. Vines are strong, perfectly hardy, vigorous growers, healthy and prolific.

CONCORD Most popular large, purplish black grape. Large shouldered, compact bunch. Flesh is juicy, sweet and tender, excellent flavor. Vine a strong grower, very healthy, hardy and productive. Ripens in October.

NIAGARA The Best White Grape. Niagara is as much of a standard among white varieties as is Concord among the blacks. Both bunch and berries are large, greenish white changing to pale yellow when fully ripe. Flesh is juicy and delicious. Skin is thin but tough, making this variety ideal for market. A dependable cropper and yielder.

FREDONIA The earliest fancy quality blue-black Grape. Claimed to be the biggest money-maker of all Grapes. The vine is vigorous, hardy and productive, ripening its fruit fully two weeks ahead of Concord. Clusters of good size, cylindrical and compact. Berries very large and round. Flesh is juicy and tender, solid, and skin firm. Fredonia is a heavy yielder, a fine money-maker, and a fancy Grape for home use.

GOLDEN MUSCAT Possesses a rich golden color and the fine muscat aroma of the European Muscat. For home use and the roadside market it is one of the best. The vine is vigorous and productive. The clusters are very large, tapering, single shouldered, and compact; the berries are large, oval, juicy, tender, sweet, and aromatic. Requires a season about ten days longer than that of Concord, and is fully as hardy. Not a California Grape.

PREMIER

FAIRPEAKE

ROBINSON

FAIRLAND

PREMIER

Still the Leading Early Market Berry. A standard of excellence with all growers, and the earliest worth-while kind that has successfully retained its popularity over a period of many years. A great money maker, as its fruit crop is produced at a time when few strawberries are on the market, thereby commanding the fanciest prices.

It's as nearly frost proof as any Strawberry can be. Unusually healthy, with deep, heavy roots enabling it to mature a full crop of berries even during prolonged dry weather. Large, bright red, firm berries, of fine texture and flavor.

Price: 25 for \$1.00; 50 for \$1.75; 100 for \$2.85; 250 for \$5.85; 500 for \$8.75; 1,000 for \$16.00.

FAIRPEAKE

The Peak of Quality. New, but already classed as one of the six best varieties for the middle and northern states. Plants vigorous and healthy, with tall, large leaves. Berries very large, deep red, excellent flavor and very firm. Ripens late, right after Chesapeake. Blossoms open too late to be endangered by spring frosts. Excellent in every respect. Try it—you'll want more!

Price: 25 for \$1.10; 50 for \$1.85; 100 for \$3.00; 250 for \$6.00; 500 for \$9.00; 1,000 for \$17.00.

ROBINSON

Largest and Best! Robinson seems to possess just about all the attributes necessary for the perfect Strawberry. That's why it's so outstandingly good. It is an excellent plant maker on nearly any sort of soil. It's a heavy bloomer and a good yielder, and is late enough to usually miss late spring frosts—ripening 12 to 15 days later than Premier. Berries are extremely large—about 30 berries fill a quart box. Color is rich, cardinal-red; flavor sweet and delicious. Of firm texture and excellent keeping qualities.

Price: 25 for 85c; 50 for \$1.40; 100 for \$2.10; 250 for \$4.00; 500 for \$7.00; 1,000 for \$13.00.

FAIRLAND

A new variety, recently released. Vigorous grower and a heavy yielder. Plants are resistant to red stele. Berries large, bright red, good quality and flavor, somewhat firmer than Premier. Has been grown successfully from New England to as far south as Virginia, and west to Missouri. Ripens right after Premier. Try Fairland—you'll like it.

Price: 25 for \$1.10; 50 for \$1.90; 100 for \$3.20; 250 for \$7.25; 500 for \$9.50; 1,000 for \$18.00.

CATSKILL

A fine, vigorous plant, producing exceptionally large, bright red berries. Begins ripening mid-season, but crop is so large, and borne over such a long period, that Catskill will still be producing nice berries when some later kinds are nearly gone.

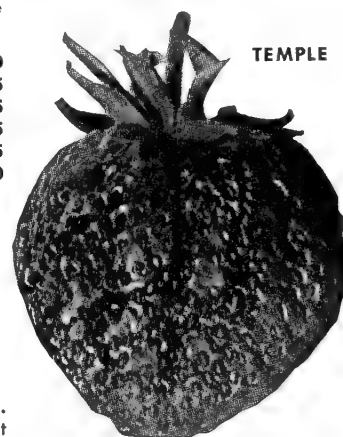

It is a cross between two excellent and well-known varieties, Premier and Marshall. Berries are of delicious flavor and quality. Excellent for either canning or freezing.

Price: 25 for \$1.00; 50 for \$1.75; 100 for \$2.90; 250 for \$5.90; 500 for \$8.85; 1,000 for \$17.00.

Adaptable to low ground and excessive rainfall. Berries medium to large size, attractive red color, firm, of good quality and flavor. Highly productive. Ripens about same time as Premier.
